trubridge.com

With the nTrust solution you will enjoy:

Reduced A/R days and improved cash flow in as little as 60 days

Reduced claim denials

Reduced write-off's

Reduced annual operating costs

Increased self-pay cash collections

Increased gross revenue

Future product innovations without license or maintenance fees

With nTrust, we are not just partnering with you to help you succeed; we are investing in your success for the long term. We have a stake in your success: if you don't get paid, we don't get paid. Because nTrust is financed through a portion of collections, our ability to collect payment for our products and services is directly tied to the overall success of your organization.

nTrust allows you to focus on what matters most to your organization: managing the health of your community. Say YES to financially flourishing and ensuring your community has quality healthcare services for many years to come.

Say YES to nTrust from TruBridge.

“

Committing to nTrust was a key catalyst in our transition from struggling for survival to flourishing and expanding services. Remembering a time less than one year ago when our primary focus was maintaining cash to cover our next payroll, it is remarkable to finally be in a position of real financial sustainability.

Learn more about nTrust and how it has been designed with your best interests in mind:

A new way to finance

Our financial program can be constructed to finance add-on products, additional services, and ongoing maintenance costs.

Flexibility you need

nTrust offers you flexibility — should you decide to change the way you manage your collections operations down the road, you won't have to replace your Evident EHR.

Minimize risk

Since nTrust is based upon a percentage of collections, your risk is significantly reduced because we don't get paid until you get paid.

Collections strategies designed for communities like yours

We take a personal approach to collections — our collection programs are customized to your particular needs and managed by regional teams whose performance is based solely on the service they provide.

It's a win-win.

With nTrust, you'll gain the tools and resources you need to enhance profitability, productivity and overall financial performance, while eliminating maintenance costs and future software license fees.
